HSC Grade: Second Class	Maharashtra State Board	2017
SSC Grade: First Class	Maharashtra State Board	2015

TECHNICAL SKILLS

Languages: JavaScript (ES6+)

Front-end: HTML5, CSS3, Bootstrap 5, React.js

Tools & Technologies: Git, GitHub, VS Code, Postman

Concepts: Responsive Web Design, DOM Manipulation, UI/UX Fundamentals, Component-Based Architecture

Deployment: Vercel

PROJECTS

Event Management Website

Technologies: HTML5, CSS3, Bootstrap 5

- Developed a responsive multi-page event management website for organizing and showcasing events.
- Designed structured sections including gallery, event details, and contact forms.
- Applied responsive design principles for seamless mobile and desktop compatibility.

To-Do List Web Application

Technologies: HTML5, CSS3, JavaScript

- Built a dynamic task management application using JavaScript for real-time interactivity.
- Implemented CRUD operations (Create, Read, Update, Delete) to manage task lists effectively.
- Utilized DOM manipulation and localStorage to ensure data persistence across browser sessions.

My Portfolio

Technologies: HTML5, CSS3

- Designed and developed a personal portfolio website featuring a sticky sidebar and overlay hero section.
- Implemented responsive design using CSS media queries for optimal performance across devices.
- Structured reusable components including timeline layout, stats section, and contact form UI.

CERTIFICATIONS & ACHIEVEMENTS

- **JavaScript Essentials** – Jan 2026
- **Web Development Essentials** – Dec 2025
